

Mohit Chaudhary

- Focused Senior Software Engineer with 5+ years of extensive experience in complete software development lifecycle with Agile Scrum Methodology.
- Proficient in Object Oriented Programming (OOP) concepts with experience in java allied technologies and design principles.
- Proven experience in developing efficient errorless code following the test driven development process.
- Unwavering result oriented professional with zeal to learn upcoming latest technologies.
- Committed individual with outstanding problem-solving skills throughout the professional career.

OBJECTIVE

Seeking a fulltime position to utilize my technical skills in dynamic professional environment of your organization. I believe my innovative ideas and creativity will contribute to company's growth and in turn ensuring personal growth within the organization.

SKILLS

Language & Technologies

Core Java, J2EE, SQL, Hibernate, Spring Framework (Core, MVC, Security and Batch), RESTful Web services, Spring Boot and Micro services

Databases

Oracle, MS SQL server, MySQL, Postgres

Application Servers

Jetty, WebLogic, Apache Tomcat

Development IDE

Eclipse, IntelliJ

Source Code Management

GitLab, GitHub, SVN

Tools

Maven, JUnit, Oracle SQL Developer, SQL Server Management Studio, CA Erwin Data Modeler, JExplorer, JIRA, Postman, WinSCP, Putty, Bugzilla,

EMPLOYMENT

JAN 2019 – PRESENT

NETCRACKER TECHNOLOGY SOLUTIONS

■ COGECO INC – INTERNET PROTOCOL TV & DARWIN

- Processing the business requirements and analyzing the specifications provided by business analysts.
- Designing & developing the products according to the client requirements.
- Analyzing, tracking and resolving the bugs found during the process and reporting it to the concern department.
- Working on required analysis, test case designing and execution of test plans.

- PROJECT DESCRIPTION

DARWIN & IPTV product solution is to provide OSS services on Internet, TV (TiVo & IPTV) and Phone to the client which includes Order handling, resource provisioning and activation. Team has been working to provide OSS services using Netcracker Order Processing framework.

DEC 2017 – JAN 2019

INFOSYS LIMITED

■ GENERAL ELECTRIC – SMART INTERMODAL MANAGEMENT SYSTEM

- Responsible for development of Spring Boot based micro-services for dedicated functionality.
- Implement efficient feature attributes with test driven development.
- Coordinate with cross functional team and contribute in all phases of development lifecycle.

- PROJECT DESCRIPTION

The SIMS (Smart Intermodal Management System) is GE's new real time Terminal Operating System designed to support a wide variety of Intermodal rail, yard and gate operations.

SIMS features are built using a micro-services architecture using cloud technologies. Platform-as-a-service capabilities are providing the foundation on which Smart Intermodal is built. External systems are interacting with SIMS features via RESTful web services. SIMS features are centralized deployed on GE defined cloud and integrated with existing OASIS system.

■ ESTEE LAUDER – CLINICAL RESERCH APPLICATION

- Responsible for development of Spring Boot application for core implementation.
- Implemented multiple rest services for unmitigated flow of application.
- Successfully secured services and application using OAuth2 and LDAP authentication.

- PROJECT DESCRIPTION

Clinical Research application enables group of panelists to input the evaluation responses through an interface and procure the report generation. Application essentially replaced a laborious manual process. Program will allow users to display images for a predefined amount of time and then ask the panelists a set of questions. It involves automated test creation process and for given images for designated network path.

DEC 2014 – DEC 2017

HCL TECHNOLOGIES LIMITED

■ INTUIT – CTODEV (DATA EXTRACTION SERVICES)

- Responsible for development of post processing codes form multiple IRS tax forms.
- Develop new Abbyy Flexilayout templates as per the client requirements.
- Undertake analysis and modify the existing modules as per changes requests.

- PROJECT DESCRIPTION

CTO DEV is a solution built for Intuit customers. This solution is based upon an integration of Abby FlexiCapture engine and post processing code for successful extraction of data in the desired format by the customer.

FlexiCapture engine is segregated in two major modules, FlexiLayout and FlexiCapture. Layout basically involves preparation of form layouts as per current year IRS tax forms. Capture is utilized for extraction of data from document types by predefined layout and the document definition attached respectively.

■ NIC – EASI CORE INSURANCE

- Design and develop high volume, low latency web-based application for client requirements.
- Implement well designed, testable effective and efficient codes.
- Assist continuous improvement by analyzing alternative to the existing functionality.

- **PROJECT DESCRIPTION**

NIC – EASI is an enterprise solution built for NIC. This solution is an integration of Enterprise applications such as EBao (vendor product for insurance), Customer Relationship Management (CRM), Human Resources Management System (HRMS), Master Data Management (MDM), Oracle Application, IDM and Oracle Business Intelligence. EBao is divided into two major streams, General System (GS) and General Claim System (GCS).

EDUCATION

2010 – 2014

BACHELOR OF TECHNOLOGY

■ GALGOTIAS COLLEGE OF ENGINEERING AND TECHNOLOGY

PASSING STREAM	Electrical and Electronics
PERCENTAGE/ CGPA	70.65

2007 – 2009

SENIOR SECONDARY EXAMINATION

■ GREENWAY MODERN SCHOOL

PASSING STREAM	Computer Science
PERCENTAGE/ CGPA	81.20

2006 – 2007

SECONDARY EXAMINATION

■ ST. MARYS CHRISTIAN SR. SEC. SCHOOL

PASSING STREAM	General
PERCENTAGE/ CGPA	82.20

ACHIEVEMENTS

- Received Stellar success individual award for taking complete ownership of IPTV product development and go live on the customer due date.
- Nominated for Pinnacle awards under category (Rising star – Lateral) for outstanding contribution to project.
- Certified Agile Professional post completion of e-Learning, class room training and online assessment.
- Earned a job-based certification with 95 percentile score throughout the HCL.
- Secured several live wire appreciation awards for dedication and outstanding quality of work.

HOBBIES

- Listening Music
- Bike Riding
